MAX. TIME: 2 HRS

---

*Note: All questions are compulsory. Carrying of mobile phone during examinations will be treated as case of unfair means. Each question carries equal marks.*

---

- 1) Write a brief note on evolution of environmental audit in India. What are the differences between financial audits and environmental audits? Why would an organisation wish to undertake an environmental audit?
- 2) Define sustainable development and environmental audit. Discuss the relationship between organisations and the environment. What advantages may an organisation gain by anticipating environmental legislation?
- 3) List at least five reasons why businesses should improve their environmental performance. Write brief notes on environmental liabilities and insurance costs? What type of pollution would insurance companies be reluctant to cover?
- 4) How environmental audit differs from financial audit. What are the different types of corporate audit? Write short notes on benefits and costs of environmental auditing.
- 5) What is environmental auditing? What are the differences between an environmental review and an environmental audit? Write a summary of an event/incident in your country which highlights the damage done to the environment.
- 6) Write brief note on Earth Summit. Discuss the following: Not only does an environmental audit identify areas for improvement within an organisation, such as cost savings, but also provides the means to implement changes. Write short notes on sustainable development.
- 7) Discuss the roles of an environmental audit within an environmental management system. What are the different types of environmental audit? "Though many sources contribute to air pollution, but automobile has been singled out as especially serious." Elucidate.
